§24–205.

(a) The Commission shall operate a system of State, regional, and local facilities to provide educational and cultural radio and television programs in this State.

(b) The Commission, with the approval of the State Board of Education, is responsible for and shall control the preparation, content, scheduling, and programming of all educational television and radio programs used in the public schools and adult education programs of this State.

(c) Subject to the provisions of subsection (b) of this section, the Commission is responsible for and shall control the preparation, content, programming, and scheduling of all its programs for the general public.
